ECOTECH IND PVT. LTD. | PAKISTAN

ecotech.pet

Built to process. Ready to source globally.

ECOTECH IND PVT. LTD.

A long-term international buyer of recycled PET feedstock.

EcoTech is a Pakistan-based PET recycler connecting large-scale recovery with technology-led washing, sorting and pelletizing. Our sourcing programme is designed for qualified exporters, recyclers, collection networks and material recovery companies that can supply repeatable quality and transparent grading.

1,800 MT

MONTHLY PROCESSING CAPACITY

GLOBAL SOURCING

TRIAL AND RECURRING SUPPLY

01

REGULAR SUPPLY

Recurring international volumes from qualified suppliers.

02

TRIAL CONTAINERS

Sample review and trial shipment pathways are welcome.

03

SPECIFICATION LED

Offers are reviewed against declared grade and test results.

CAPACITY NOTE

The 1,800 MT/month figure states EcoTech's processing capacity and does not constitute a guaranteed monthly purchase commitment.

Four flake grades. One disciplined baseline.

01

>= 6 MM

Minimum flake size

02

< 1.0%

Moisture by mass

03

<= 0.5%

Total foreign/non-conforming material

FLAKE 01

Clear / white flakes

100% of the PET fraction must meet EcoTech's approved clear/white reference.

No other colors and no darker-shade recycled PET (rPET) bottle material.

FLAKE 02

Green flakes

Green cold-washed PET flakes. Supplier must declare actual grade and any deviation.

FLAKE 03

Mixed-color flakes

Cold-washed PET flakes containing a declared and repeatable mixed-color composition.

FLAKE 04

Blue flakes

Blue cold-washed PET flakes. Supplier must declare actual grade and any deviation.

Moisture is reported separately and is not counted as impurity. Final acceptance is subject to sample approval and contract-specific test methods.

ECOTECH INTERNATIONAL PROCUREMENT REQUIREMENTS

ECOTECH IND PVT. LTD. | 03

Segregated grades. Export-ready loading.

01

< 1.0%

Moisture by mass for every shipment lot

02

<= 0.5%

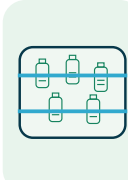

Total foreign/non-conforming material

BALE 01

Segregated clear / white bales

PET bottle bales containing segregated clear and white bottles only, prepared for export loading.

BALE 02

Segregated green bales

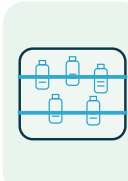

PET bottle bales containing segregated green bottles, with actual composition declared.

BALE 03

Mixed-color bales

PET bottle bales containing an agreed and declared mixed-color composition.

BALE 04

Segregated blue bales

PET bottle bales containing segregated blue bottles, with actual composition declared.

State average bale weight, bale dimensions, straps, container payload, loading photographs and any deviation from the selected grade.
